MICROMOUSE ROBOT MAZE SOLVING COMPETITION

Build and program a robot to find rewards in a maze.
The competition includes different levels of difficulty, and the aim is to pass through the various checkpoints in the shortest time possible.
Be creative in designing your robot body!

Participation steps:

1. Set up a team of min 2-4 students, from different specializations
Faculty of Automatics, Computers & Electronics and Faculty of Sciences
2. Fill in the form attached to the QR code.
3. Receive the components for your robot, provided by Continental
Join our mentoring & briefing meetings, for guidance and support
4. Build your robot and program it
5. Participate in the competition on April 24th 2024

Only 10 teams can attend the competition, so hurry up and book your place!
