

AUMOVIO Hackathon

Join the competition where robots follow lines and students chase victory. This is where you truly test your logic, your algorithms, and how your robot responds in real situations.

How to register?

- form a team of 3-4 students from Automatics, Computers & Electronics, Electrical Engineering or Science Faculties
- sign up via QR until April 13th
- collect your robot components
- join the preparation sessions on April 20th
- compete on May 7th
